Highland Baking Company

Dave Johnson & Associates worked with both American Igloo Builders and Gillespie Design Group to add a 15000 SF freezer to the Highland Baking Company's existing building. This project involved extensive work on permitting and determining allowable stormwater release rates. In addition to providing permit assistance, DJA performed the site design, topographic survey, construction layout and as-built drawings for the property.

Reappointment to Stormwater Management Planning Committee

Dave Johnson, DJA's president, just completed a three-year term as a member of DuPage County's Stormwater Management Planning Committee. On December 11, 2007, he received a reappointment for another three-year term. The Stormwater Committee sets DuPage County's stormwater policies and ordinances in conjunction with

::

Best Management Practices. Additionally, they oversee all stormwater disbursements and stormwater issues in the County. Dave specifically brings over 30 years of stormwater planning experience to the Committee and his expertise will be of great use to the County.

Upcoming Project...

Dave Johnson & Associates was recently selected for a service contract with the United Parcel Service (UPS) North Central Region. The first project in relation to this contract will be the reconstruction of the Kendall County UPS facility's parking and maneuvering areas. DJA will be preparing a detailed drainage plan for the project. In addition, DJA will be performing boundary and topographic surveys and utility analysis.

Dave Johnson & Associates, Ltd. is a competitive full service civil engineering and land surveying firm specializing in site design for municipal, park district and private developments. To find out more, go to our website: www.djaonline.net and contact Dave Johnson at 630.752.8600 or dave@djaonline.net to discuss your upcoming projects.
